6.04 ATWOOD LAKE RESORT AND CONFERENCE CENTER

The following individuals addressed the Board:

- Ms. Rutledge stated that in these difficult times, closing of the Resort would be detrimental to Carroll County and would devastate her job as director of the Carroll County CVB. The Resort pays 75% of the bed tax received by the county and makes up 60% of her budget. The Resort operation is a major portion of the tourism product for Carroll County. Though she “can’t offer a solution” to the situation, closing of the Resort will produce a large economic impact.
- Mr. Chunat expressed his appreciation to the MWCD Board and staff for the intense dialogue with county officials over the past several months. MWCD has been an active part of the Carroll County community with the operation of the Resort for the past 30+ years. He reiterated the financial impact closing of the Resort would have on Tuscarawas and Stark counties as well as Carroll County. He strongly urged that the Board consider continuing the dialogue.
- Commissioner Wheaton began by mentioning that he dreads seeing a newspaper headline that reports that “the Lodge is closing.” He mentioned the efforts of the past several months to seek funding to keep the Resort open. He has been monitoring the MWCD budget and said he is knowledgeable of the current financial situation as it relates to Atwood Resort. He also stressed
the negative impact that closing the Resort would have on Carroll and Tuscarawas counties. Although it is very important for the Resort to stay open there needs to be an understanding that it needs to be a different operation than exists today. Mr. Wheaton observed that the MWCD is in a “very political” situation and if MWCD comes out looking good on this issue, we will all look good – there will be strong advocates in the county. He urged that the Board would not vote to close the Resort. He said he is of the opinion that two good RFP responses were received by MWCD and thinks that terms for those could be negotiated. He closed with a statement to the Board, urging “please take all these things into consideration when you make your decision.”

- Ms. McCullough stated that (Congressman Space’s office) has been working on the issue of operation of the Atwood Resort for several months and that it continues to look at options. She suggested more aggressive marketing and urged the Board to reconsider any decision to close the Resort.
- Mr. Enslen stated that if MWCD were a for-profit corporation a decision would be simple – close. However, the MWCD shareholders are the members of the public. He urged that the Board consider all the negative impacts on the shareholders. Mr. Enslen stated his opinion that MWCD staff and community work toward not closing the Lodge and make it “at least” a break-even venture.

Following public comment, the Board moved to executive session.

Upon return to open session, Mr. Hoopingarner reviewed the two proposals received by the MWCD in response to the recent request for proposals. One proposal was from Bruce Cassidy of Harrison County, the other from David Hall, President, LifeCenter Plus, Inc., of Hudson and Delaware North Companies Park & Resorts. Both proposals stated a $1.00 purchase price of the Resort, including all the grounds. Mr. Parham expressed his disappointment in the quality and content of both proposals received.

On motion by Mr. Parham, seconded by Mr. Boyle, the two proposals received by the MWCD in response to the request for proposals were rejected, as recommended and set forth in the above memorandum; Mr. Parham further stressed that no further negotiations should take place between the MWCD and either of the two aforementioned parties regarding the Resort.

On motion by Mr. Parham, seconded by Mr. Boyle, the Board authorized that: effective February 1, 2010, the Atwood Lake Resort and Conference Center will be operated on a weekend only basis (Friday through Sunday), commencing May 1, 2010, through October 1, 2010, there will be full operation of the Resort; and a final closing date of the facility be set for October 1, 2010.

Mr. Horstman affirmed the decision of the Board by stating that its decision will address any question of due diligence related to the operation of the Atwood facility.

Mr. Parham added that there have been financial sacrifices for many years to keep the Resort going. He lives within sight of the facility and although it would be a sad day to see it close since it has been a treasure for the community for so many years, that it does not make financial sense to continue its operation. It is very important to the MWCD to find a solution that will allow it to be answerable to the public it serves and answer the question of “what is fair?” It simply is not fair to the other 17 counties that MWCD serves to continue the deficit situation at Atwood Resort, he said.
