6.05a PWM PROGRAM GRANT REQUEST
ODNR ACID MINE DRAINAGE RECLAMATION PROJECTS

On motion by Mr. Parham, seconded by Mr. Horstman, Partners in Watershed Management grant funding in the amount of $247,500.00 for ODNR acid mine drainage reclamation projects, as recommended and set forth in the above memorandum, was approved.

6.05b PWM: DEBRIS REMOVAL PROGRAM

The Amendment to the Official Plan of the MWCD stipulates that, “MWCD will establish a program to assist counties, municipalities and townships in the watershed with the identification of debris areas and removal options.” Debris, log jams, and similar impediments particularly related to bridges and culverts can increase flooding to adjoining properties and wash out roads and bridges. In addition, from a reservoir maintenance perspective, debris which washes into MWCD’s reservoirs can pose a public health and safety threat, negatively impact water quality, and ultimately require the expenditure of dollars to remove and properly dispose of the debris.

To that end, staff and Chief Counsel have drafted a document which is intended to provide guidance to local communities seeking financial assistance from MWCD for debris removal projects. This document will also serve as a legal document between a local community and MWCD.

In summary, once a debris removal project is submitted to MWCD for consideration, Board approval will be required for those projects which exceed $25,000 in MWCD financial commitment. In addition, the agreement between MWCD and a local community addresses the following:
- Project scope
- Cost-sharing percentage
- Procurement and contracting requirements and guidelines
- Ingress/egress requirements
- Debris disposal requirements
- Legal protections and indemnifications for MWCD

Maintenance budget projections include $100,000 per year for debris removal projects. Requests for financial assistance will be considered in the order in which they are received, though those projects deemed to be a high priority based upon actual or anticipated flooding and public health and safety concerns will receive the highest level of consideration. In addition, the Debris Removal Program is not intended to be used as a watercourse maintenance fund. Only those requests which clearly can show a flooding and health and safety hazard will be considered. Finally, requests for financial assistance will only be accepted from a political subdivision of the State or from a federal agency (e.g. municipality, township, county, federal, state or local agency).

This agreement is provided to the Board for review and comment. No action is required at this time.

6.06 RECOMMENDATION FOR DAC APPOINTMENT

On motion by Mr. Horstman, seconded by Mr. Parham, the appointment of George Romanoski to the Development Advisory Committee, as recommended and set forth in the above memorandum, was approved.

6.07 ATWOOD LAKE RESORT AND CONFERENCE CENTER

Mr. Parham made the following motion: 1) Suspend any action to raze the Lodge or other buildings on the Atwood Resort property and suspend any action to sell the contents of such structures until further order of the Board of Directors; 2) Offer to donate the Atwood Resort to another governmental body (specifically to Carroll County, to Kent State Tuscarawas and, once again, to ODNR) under terms that will assure continued operation of the Resort; 3) If no governmental body will take on this responsibility, then offer the Resort for sale at a price to be determined by the Board in consultation with the Board of Appraisers; If no deal is made under the above, then the Board shall set terms for a public auction of the Resort; and If still no deal is made, then the Board will consider remaining options to include razing the buildings. Motion seconded by Mr. Pryce. Motion carried.

6.08 STRATEGIC PLANNING

Mr. Hoopingarner informed the Board that the original time scheduled to spend with Active Strategy for working on strategic planning has been delayed until later this year. He assured the Board that staff remains committed to this effort.
