4. FINANCIAL

Mr. Cugliari presented the financial report for the period ending November 30, 2010. The total revenue for operations excluding Atwood Resort is $9,882,040.00 with expenses of $8,748,178.00, resulting in an excess of revenues over expenses of $1,133,863.00. Including the Resort operations, expenses exceed revenues by $14,696.00, thus showing the significant impact the resort operations continue to have on the main district operations.

Conservation Fund
- Total revenues are 95.52% of budget with expenses at 95.50% of budget.
- Timber Harvesting is 83.80% of the revenue budget with Pine Pulpwood Operations at 75.43%.
- Farm Operations – Sharecrops has met and exceeded budget by 16% or $52,000.00. This is also $72,000.00 more than in 2009.
- Mineral Operations – Gas and Oil is 94.70% of budget or $15,000.00 short. This should be met in December with anticipated revenues.

Recreation Fund-Parks
- Total revenues are 101.46% of budget with all major revenue categories meeting and exceeding budget.
- Vacation cabin revenue has exceeded budget by $4,600.00; Park Camping by $49,000.00; Camper Trailer Storage by $4,400.00; and General Park by $9,900.00.
- Total expenses are 92.65% of budget and $200,000.00 less than 2009 at this time.

Recreation Fund-Non Park
- Total revenues are 97.58% of budget while expenses are 89.00% of budget.
- All of the major revenue categories in this area have met and exceeded budget.
• Overall Marina Operations revenues, including Piedmont, exceeded budget by over $70,000, while expenses were kept in check.
• Cottage Sites, Club Sites, and Multiple Docks were all near or exceeding budgeted revenue.

Atwood Resort Operations
• Information was not received from Prospera/Boykin on the financial reporting for their operation through November 15, 2010, therefore the October financial information is being used.
• Overall, the Resort Operations has expenses over revenues of $1,148,559.00. Again, this shows the impact the operation has had on the overall MWCD operations.

Cash flow continues to be of great concern. However, the KeyBank line of credit is in place and funding some of the advances the MWCD has made to the Resort operations this year.

Mr. Slogar distributed information summarizing the use of maintenance assessment funding.

On motion by Mr. Pryce, seconded by Mr. Parham, the financial report was accepted as presented.

6.01d PIEDMONT GOODRICH COTTAGE AREA ENTRANCE GATE AND SECURITY LIGHTING

Mr. Byrne addressed the Board regarding a locked gate and a security light located at the entrance to the Piedmont Goodrich Cottage Area. The Goodrich Cottage Area Association is requesting the MWCD to assume ownership of the gate and light to alleviate membership’s maintenance and liability concerns.

According to Mr. Byrne, this cottage area is very isolated and several break-ins have occurred over the years. The Association invested in liability insurance for the gate at a cost of approximately $500 annually. He suggested that if the MWCD would assume ownership of the gate and security light, the residents would take care of the necessary maintenance. Cost of the security light is approximately $12 per month.
The Board took this matter under advisement and it will be brought back for action at the next regularly scheduled Board meeting.

Atwood Lake Shoreline Stabilization Project

As discussed at the November 19, 2010, Board meeting, bids were received on November 17, 2010 for the Atwood Lake shoreline stabilization project. The low bidder was Massillon Construction and Supply, LLC, at a bid price of $284,500. The second lowest bidder was Scassa Asphalt at a bid price of $312,907.40.

Upon review, Massillon Construction was unable to demonstrate any experience in shoreline erosion projects and because of this inexperience and the limited time available to complete this drawdown-sensitive project, it was determined that their bid was not the lowest and most responsible. Chief Legal Counsel was consulted and it was agreed upon review of Scassa Asphalt’s bid and their demonstrated project experience to award the project to Scassa Asphalt. Staff is finalizing contract documents prior to issuing the Notice to Proceed.

Seneca Lake Shoreline Stabilization Project

Bids were received on December 2, 2010 for the Seneca Lake shoreline stabilization project. The engineer’s estimate for the project is $383,231 and bids ranged from $240,207.30 to $421,257.45. The apparent low bidder is Stanley Miller Construction Company.

At the November 19, 2010, the Board authorized entering into an agreement with the lowest and most responsible bidder. After reviewing the bids, the project was awarded to Stanley Miller Construction Company. Staff is finalizing contract documents prior to issuing the Notice to Proceed.

This memorandum is for informational purposes only and no action is required by the Board. Funding for both of these projects is included in the 2011 maintenance project budget.

6.06b CHARLES MILL SHORELINE STABILIZATION PROJECT

The Tappan Lake Park seawall project consists of removing existing erosion control concrete slabs and installing a vinyl sheet pile wall capped with boat tie-off cleats. The project location starts at the existing boat launch ramp within the park and extends approximately 1,200 feet along the peninsula.

At the October 22, 2010 Board meeting, authorization was granted to advertise for bids and award the project to the lowest and/or best bidder. The estimated cost for the project is $250,000 and a Clean Ohio Grant in the amount of $187,500 will fund this project with a 75%/25% local match required. Tappan Lake Park seawall project construction bids were opened on November 24, 2010, and the bid results were as follows:
